

Escape from Antcatraz

You're a tiny ant, trapped underground on the number 2 indicated. Can you find your way and crawl back to the surface? Here's how:

- 📌 Pick a direction—north, south, east, or west.
- 📌 Move in that direction. You can move only the number of spaces indicated by the number you're on. (Your first move is 2 spaces, for example.)
- 📌 You can pick a new direction at the beginning of a move but you cannot change direction in the middle of a move.
- 📌 If you wander off the anthill, you're doomed.

THINK ABOUT IT!

What is the last number on the grid that you will hit? What is the second number?
